Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, handles more than 120,000 individual components fabricated for 20 distinctive brands of forklifts and automated equipment. Your local Clark Seller is your complete source for availability of all your parts needs provided by Clark Totalift.

Clark features a phenomenal Parts Supply team. The parts warehouses are conveniently located in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their customers and their dealers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Driven to provide the highest level of value and service to our customers, Clark remains on the leading edge when it comes to enhancing efficiency and benefiting performance.

Worldwide, Clark has one of the most outstanding dealer support networks. With over 550 locations globally, seller representation in over 80 countries and 230 locations in North America, their high level of dedication to their clients predominates the materials handling industry.

By revolutionizing the operator restraint system safety feature, Clark proudly remains a leader of innovation in the industrial equipment and automated forklift industry. This exceptional commitment to safety is currently a standard feature on every forklift.

Clark's continual effort to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift producer across the globe to be certified with the internationally approved quality standard ISO 9001 for all of their manufacturing plants. Additionally, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be prepared for any number of environmental limitations, thus placing them in a prevailing market position.

Clark has preferred the extremely economical and advantageous structure of "Lean Production" for its assembly facilities and use of resources. This structure was developed to acknowledge the most successful method of manufacturing plant stewardship and ensuring maximum efficiency. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers join together to improve the efficiency and brilliance of their merchandise while minimizing expenses. The contemporary value engineering agenda combines modern product development and offers superior client support and service within the industry.
