

Meritor Parts

Meritor Part - Meritor is a premier global supplier which is proudly founded on a 100 year custom of service and quality. They specialize in a broad range of integrated systems, modules and components to original machine makers and the aftermarket for the industrial and transportation trades.

Meritor values the needs of their customers to guarantee their success while priding itself in the company's unique energy and believes this output of energy to be their aggressive advantage in their global operations. Meritor starts with a culture that values diversity of people and their broad thought processes. Operating in 19 nations and employing over eleven thousand two hundred individuals, Meritor encourages innovation and collaboration among a team of experienced professionals.

By just hiring future focused people, Meritor strongly feels these top-caliber individuals will be able to quickly get used to to changing environments and exhibit the performance and commitment considered necessary to achieve results in the competitive materials handling market. The business empowers their teams to make sound business decisions to be able to improve the overall success of the company. In return, Meritor provides all of their workers different opportunities for professional and personal growth.

Their Advanced Engineering team is at the forefront of parts and system engineering that consist of axles, drivelines, braking and suspension systems utilized for heavy duty and medium trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is growing. They opened a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives that represent the entire Asia Pacific region. This team is also responsible for supporting the requirements of their global engineering staff.

Meritor's dynamic and customer focused Quality team is dedicated to ensuring optimum processing at their aftermarket distribution facilities and production plants that are situated around the globe in 19 nations and in 5 different continents.

They have their supplier network which is specifically located in order to support the growth of the business. Each and every regional team has globally supported initiatives, quality systems and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a fact-based, data-driven method to decision making in each part of the company. The DFSS or also referred to as Design for Six Sigma ensures product reliability within every region. The team is even comprised of transactional Green Belts who make use of Six Sigma tools to business processes and apply lean techniques.
